To: nlanasecretary@gmail.com, NLANA Chair <nlanachair@gmail.com>

Hi all, I apologize for this report being late. I have still been trying to work with Region on getting full, reliable access to the website and editing abilities. They had been able to get the local service part of the website up for a period of time..maybe 2 weeks but I was not able to access editing abilities. I had connected with them again on getting those abilities and they had that fixed. Then, when I went back onto the website to use them, the local services part again was not operating. As of Feb 6, this was where the website was at. I have been able to get the meeting list updated by sending emails to the meetinglist email.

I have decided to step down from this position because of lack of time to do both this position and Vermilion chair among other life obligations. I can give a brief description of what the job duties as I know them to whoever takes on this position.
