

Web Publisher Report
8-3-13

I attended the web publisher training and got the permissions to edit our areas website. So far I have added all the calls/minutes/agendas that we have for 2013, and uploaded all the 2013 Vermilion committee docs. There may be documents from 2012 missing but I don't have copies of any of those to upload. I updated the meeting list on our main site and have added all current upcoming events. I think after webmaster is elected in August our ASC should look into what information we want to have on our main page. Also I think we should make an effort to make our website more known to the addicts in our area letting them know this information is out there at their disposal. Thank you for this opportunity to serve Narcotics Anonymous.
