

PIG Committee Meeting Minutes

February 2, 2012

Meeting opened at 6:00 PM by PIG Chair, Brad S.

Introductions: 10 members in attendance

Subcommittee Reports

Chair (Brad S.): The event was a great success especially for being at a new location this year. We will be talking with the campground on Wednesday August 15th at 10:30am. We would like to give the campground \$500 deposit for next year's event. Some of the comments from the event are listed below.

- It was discussed that we should hold the finals for the volleyball, horseshoes & cribbage after the Sunday speaker.
- There was an awesome midnight meeting on Saturday and it should be put onto the meeting, along with asking people to bring a piece of wood.
- It was discussed that we could schedule times for groups of addicts to go tubing together.
- It was talked about that surveys should be onsite - maybe have comment cards and a drop box near the coffee pot.
- It was suggested that we should put bee traps around the drink area.
- It was discussed that we will have more garbage cans next year and another dumpster available. The portapotties will be spread out more and possibly put more out since we believe this will be bigger event next year. We should put out cigarette butt cans out around the pavillion, maybe we should purchase some for use every year. It was discussed that we are all accountable to put our cigarette butt's in the proper place.
- We did have a couple of complaints about the music being too loud during the afternoon and we'll talk with the DJ about it for next year.
- The hug up meeting wasn't all the way around like it has been in the past. We need to get a clarity statement before the hug up meeting, it's an NA meeting, not clean time, sobriety, alcoholism... Maybe we could go unplug at eleven because of the sound ban per the campground. It was specifically made that with the campground that we can use the microphone until the fire dies down.
- We ran out of beans and possibly could've ran out of meat if more people showed up.
- Mary said that the screen tent leaked so maybe we should check the condition of the tent.
- Melissa talked about that all of the vendors were great. We also donated everything that was open or left over to the local homeless shelter.
- The swimming pool was awesome, the showers were awesome, tubing was a great time if you go in a big group.
- The pool will be closed during the speaker next year.
- We need to have the PA set up earlier so that activities could be announced when they were happening.
- We will be addressing the milage disagreement in the bylaws along with other things that needs to be changed.
- Erica discussed that we don't need a first aid chair simply because it wasn't needed much, but she is willing to administer if needed.
- Is there anything we can do to make t-shirts more efficiently? We had too many options - we need to break down colors to a minimum. It was too overwhelming. Addicts were asking for solid shirts, or tie dyed tanks. It was brought up that the price for admission was less than for t-shirts. This year we lowered the cost of admission and raised the costs

for t-shirts. We are switching to a different company next year. Maybe we should have a bigger gap in pricing for pre-registration and at the door prices.
